

WHAT TO EXPECT AT

Your Child's Special Education Eligibility Meeting

As a key team member, your insights are crucial in addressing your child's needs. Your voice is valued in every step of the process.

Criterion 1

We'll discuss how your child's skills align with age and grade expectations. Your observations at home are essential to this review.

Criterion 2

Together, we'll examine data on your child's progress with targeted interventions. Your perspective on their abilities is important.

Criterion 3

We'll work together to rule out factors like language, culture, or hearing or sight issues that could affect learning.

Criterion 4

We'll confirm that your child's challenges aren't due to a lack of learning opportunities, with your input.

Eligibility Determination

Based on the gathered information, we'll determine if your child qualifies for Special Education. If eligible, this is through an IEP; if not, through interventions or a 504 plan.
